

## BENEFITS OF SKIN CARE

At DayGlo Med-Spa, we are proud to offer corrective, medical skin care that utilizes the most progressive treatments and products to help people achieve their healthiest skin. Consistent skin care is a great way to prevent premature aging, correct previous damage and treat various skin conditions such as acne, rosacea, pigmentation and more. We are here to guide and assist you in keeping your skin looking its best!

## CONSULTATION & SKIN ANALYSIS

Our skin care professional will examine your skin and talk with you about your skin care concerns. We will discuss current regime and customize a skin care program for your skin's needs and your lifestyle.

Thirty Minute Consultation. . . . . \$25  
*Fee waived if booked with a treatment*

## MICRODERMABRASION THERAPIES

Microdermabrasion is a technique that aides in the repair of facial skin damaged by the sun and minimizes the effects of aging. We use a medical grade, non-invasive device that circulates tiny crystals across the skin at a high pressure. The process allows for an exfoliation and resurfacing of the skin. A customized facial is also included with this treatment. Best results seen within 6 to 8 treatments.

*For post-operation patients, or those with sensitive skin, an organic version of buffing mineral crystals is offered to provide a lighter, less intensive treatment.*

## DERMAWAVE® THERAPY

A revolutionary ultrasound therapy that utilizes ultrasonic waves and electrical stimulation to boost skin health. It drives nutrients, moisture & healing ingredients deeper into the lower levels of the dermis where they are most effective. It is used to treat post-op bruising & swelling, acne, scarring and pigmentation. It also stimulates collagen and improves the appearance of fine lines & wrinkles.
